

Nemeris IT OÜ — Security Statement

Updated: 2026-04-16

1. Governance

Nemeris IT OÜ maintains documented security policies, Role-Based Access Control (RBAC), and strict confidentiality obligations for all personnel.

2. Technical Measures

TLS encryption for data in transit; AES-256 encryption at rest (where supported); regular backups; rapid vulnerability remediation; and hardened security baselines.

3. Monitoring

Centralized logging, comprehensive audit trails, real-time alerting, and periodic security reviews.

4. Incident Response

Structured runbooks covering triage to recovery; SLA targets for incident response are agreed per engagement.

5. Continuity

Regular backup restoration tests, dependency inventory, and defined RTO/RPO targets to ensure business resilience.
